

Siena Leather LEED Information

LEED CERTIFICATION: TECHNICAL STATEMENT

This document verifies that Siena's Leather Floors enable project teams to earn credits for the LEED® Certification of Commercial New Construction (NC) and Existing Buildings (EB).

Siena Leather Floors are made from high quality recycled leather strips, FSC Certified HDF, and cork – and finished with a zero-VOC water-based polyurethane coating. This unique combination of 100% sustainable materials makes for a remarkable and original flooring product.

LEED System	Applicable Credit	LEED Point Value
NC	MR 6, Rapidly Renewable Materials	1
NC	MR 7, Certified Wood	1
NC	EQ 4.3, Low-Emitting Flooring Systems	1
EB	MR 3, Alternative Materials	1

- High quality recycled leather accounts for 23.8% of the product. Therefore, 23.8% of the cost of this product can be applied to your MR4 calculations.
- Cork accounts for 11.4% of the product. Therefore 11.4% of the cost of this product can be applied to your MR6 calculations.
- FSC Certified HDF accounts for 64.8% of the product. Therefore, 64.8% of the cost of this product can be applied to your MR7 calculations.
- Because of the sustainable qualities inherent in this product, if you are working on a major renovation project for an existing building then using this product can help you comply with **Materials and Resources Credit 3: Sustainable Purchasing – Facilities Alterations and Additions (LEED EBOM)**.
